above what the property is worth.

A public school, site at Herkimer Breet and Stone aveaue. Breitly, was commer, J. W. Pickett, but the Board of Estimate thought this too much and ordered condemnation proceedings.

The result was that the city bought the land, from other owners at 59 50, the price fixed by the Commissioners.

According to the records, the owner, Mr. Pickett, sold the land, after condemnation proceedings were ordered, for \$22,000, or \$2,000 more than the price asked from the city.

The Finance. Department officials point out that the man or men who bought from Pickett took no chance to lose. The Commission went on with its work and after taking testimony, reported that the land was worth \$9,500, which sum the city will have to pay. This gives a net profit of \$17,500, in addition to the cost of condemnation.

"The commissioners reported, said an official, "that the city's experts in the fitteen lots were worth \$40,000 and other experts testified that they were worth \$60,00. This left the commissioners no choice but to split the difference between the two estimates which they did."

Of the guidlites of mind and heart of Mr. Dundy In, the closely paying and the stage, there was none who had not be stage, there was none who had not be stage, there was none who had the stage, there was none who had not be stage, the clay of the mind had the stage, there was none who had not be stage.
